## Inspired Collage™ Workshops:

Inspired Collage™ is a simple practice inspired by the love of Scripture, beauty, art and Christian therapy. It is a kaleidoscopic blend of practices which emerged from the search for tools and insights that bring individual healing and growth. Through the power of images, journaling, and meditation the longing for a deeper connection is made with God, yourself and others. (Let your imagination fly upon the truth) You will take home with you a uniquely crafted collage and a creative practice that can be used for your personal Scripture meditation and continued growth.

## Inspired Collage™ Session:

Our time together includes a presentation regarding the highlights and obstacles of creating a 2012 Dream Board. (Some obstacle examples: black and white thinking or negative self-talk, fear of failure or success) Time is given for journaling and connecting with God. You will then choose a Scripture, words and images. During the session 1000's of images will be provided. You will find yourself gravitating toward images that have a personal meaning for you. Through a process of discovery and revelation, adding and subtracting, a larger story, an illuminated image emerges from the layers. At the end of the workshop, participants will have the opportunity to share their crafted accordion Dream Board and their experience. A safe place is provided for sharing. Come and experience the richness of fellowship and spiritual growth.
